Barikoi

Mapping Bangladesh's Future

Case Study · Startup Success Story

Presented by: *Rasel Shikder*

Student ID: *BBA2402032084*

Institution: *Sonargaon University*

Date: *9 April, 2026*

Why is finding an address in Bangladesh so hard?

1 in 3 deliveries fails due to vague addressing.

THE PROBLEM

No reliable map. No standard address. No GPS accuracy.

- Delivery drivers lost daily
- Wrong GPS pins everywhere
- No local landmark system

THE IDEA

Build Bangladesh's own map. From scratch.

Crowdsourced. Hyperlocal. In Bangla.

BARIKOI

বাড়িকই

Founded 2017 · Dhaka, Bangladesh

Mapping the Unmapped

5M+	500+	1st
Locations mapped	Business clients	Bangladeshi map API

"Localize. Digitize. Connect."

THE SOLUTION

One Platform. Total Location Intelligence.

Barikoi Maps

Bangladesh's own digital map layer

Location API

Geocoding & routing for developers

Smart Apps

Ride-share, delivery & navigation

REAL-WORLD IMPACT

Lives changed. Businesses transformed.

E-commerce logistics

Pathao, Shajgoj cut delivery time by 40%

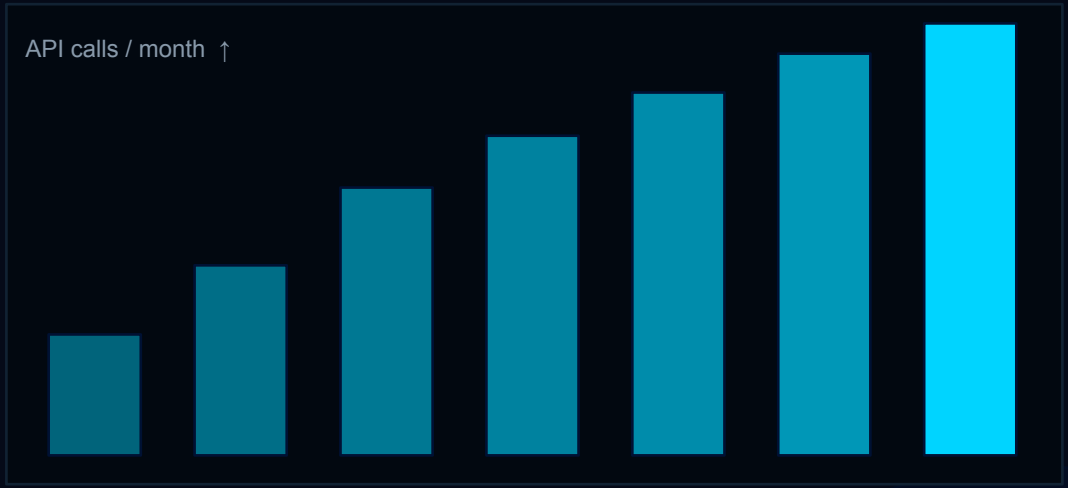
faster delivery
for partner businesses

10M+ API calls / month

From startup to national backbone.

GROWTH TRAJECTORY



2017

Founded

First geocoder for BD

2019

API Launch

Developer platform live

2021

Scale Up

500+ clients

2025

5M+ POIs

Most detailed BD map

SUCCESS FACTORS

Why Barikoi Won.

Local-First Design

Built for Bangladesh,
not adapted from abroad

Open Developer API

Enabled an ecosystem
of 500+ businesses

Community Data

Crowdsourced accuracy
no foreign map had

Bold Vision

Solving a real,
ignored problem

Local problems deserve local solutions.

Barikoi didn't wait for Google.
It built Bangladesh's own future.

Thank You!

Open for Questions & Discussion

We'd love to hear your thoughts.

"Map your future. Build local."
