About Me

Full Stack Web Developer with hands-on experience in Next.js, TypeScript, Node.js, Express.js, MongoDB, and Mongoose. Skilled in building responsive, high-performing applications with strong understanding of REST APIs, NextAuth authentication, and deployment via Vercel and VPS. Passionate about clean code, performance optimization, and remote collaboration with others MERN stack skills

Skills

- **Frontend**: React.js, Next.js, Redux Toolkit, Tailwind CSS, BootstrapResponsive UI Design,
- **Backend**: Node.js, Express.js, REST APIs, Prisma, Mongoose, NextAuth, REST APIs
- **Languages**: JavaScript (ES6+), TypeScript
- **Databases**: MongoDB, PostgreSQL, Redis
- **Tools**: Git, GitHub, Postman, DevTools, Vercel, VPS deployment, version control

Projects

- **Companion – Travel Partner Matching Platform**
  Next.js, Node.js, Prisma, PostgreSQL
  - Built a responsive React-based travel platform with reusable components and role-based matching supports multi-user
  - Integrated REST APIs and NextAuth-based authentication, enhancing security and enabling seamless user login experiences.
  - Optimized frontend performance using React Server Components and filtering logic, reducing load time by 30% and improving scalability for concurrent users.

    Links: Demo — GitHub
- **MatirPay – Digital Wallet & Payment System**
  TypeScript, Express.js, MongoDB, React, Redux
  - Engineered a scalable React application with reusable UI modules handling P2P transfers and transaction workflows
  - Implemented RESTful APIs using Express.js and Mongoose with secure role-based access control for users, agents, and admins, improving system stability and scalability by 25%.
  - Designed responsive frontend and optimized state management improving performance and user experience across devices

    Links: Demo — GitHub
- **Tough Tour – Tour Management System**
  React, TypeScript, Node.js, Express
  - Developed a responsive booking system using Next.js and React with reusable components and modern UI/UX practices, deployed on Vercel for continuous delivery.
  - Integrated REST APIs, JWT authentication, OAuth, and payment gateway enabling secure and efficient user operations
  - Built admin analytics dashboard and optimized application performance supporting concurrent users and real-time insights

    Links: Demo — GitHub

Education

- **Sonargaon University (SU)** — Dhaka, Bangladesh
  Bachelor of Business Administration (BBA) – Ongoing — *Expected April 2028*

Certification

- **Programming Hero** — Certification
  Next Level Web Development
- **IELTS Academic** — Certification
  Overall Band 6.5

Languages

- Bengali (Native)
- English (Upper Intermediate)
